Advocates for Access is a private, not-for-profit, non-residential organization established in 1985, managed by and for people with disabilities. To fulfill our mission, we provide direct services, combined with advocacy for social change to allow greater integration of persons with disabilities into mainstream life.

Advocates for Access serves the counties of Peoria, Tazewell, Fulton and Woodford. We serve people of all ages and disabilities, their families, and the communities in which they live. We also work with private organizations, local communities, service providers, businesses and industries that require technical assistance in responding to the needs of people with disabilities.

As a center for independent living, we provide the following core services:

Independent Living Skills Training provides individualized instruction in life skills by setting and achieving goals such as using public transportation, money management, social skills, attendant management, nutrition and self-advocacy.

Information and Referral provides information about disability issues and referral to other agencies, which provide services to people with disabilities. This is available to the public and to consumers.
