Mike Cheesman, Vice President of Community Options
Jen Funk, Director of Development

Mission

We enrich the lives of individuals with intellectual and developmental disabilities. We envision a world where people with disabilities are respected, engaged in community life, and have every opportunity to achieve their personal best.

How to Help

EP!C relies on our philanthropic community to help continue our mission and positively impact the lives of our individuals each and every day. Much of our fundraising is done through our signature events and EP!C programs, including EP!Casso, our art program, and EP!C Harvest, our horticultural program. There are many ways to contribute financially through endowment funds, tributes, memorials, seasonal and year-round gifts, or cash donations. For more information, visit epicpeoria.org/donate.

We are honored to have thousands of volunteer-hours each year across our many programs. We are truly grateful to those who give of their time, talent and treasure to impact the lives of our individuals. We can accommodate volunteer groups from one to 100; we have a project or need that can speak to anyone! To learn more about volunteer opportunities, contact Jen Funk at (309) 689-3771 or jfunk@epicpeoria.org, or visit epicpeoria.org/volunteer.

EP!C, formerly PARC, has served individuals with intellectual and developmental disabilities and their families since 1950 and continues to offer the highest standard of support and care. EP!C is committed to helping individuals with disabilities achieve their life goals and live life to the fullest.

We empower individuals and their families by offering a **variety** of support services and programs, since one size does not fit all. The variety of programs we offer ranges from residential options, employment preparation and placement, and continuing education on skills that increase knowledge of activities of daily living. EP!C also works to connect individuals with volunteer opportunities where they can share their gifts and talents.

EP!C needs the assistance of our community as we build relationships with business and community members to partner in supporting individuals who are determined

not to let personal challenges diminish their contributions to their world.
