Mission

St. Jude Children's Research Hospital is leading the way the world understands, treats and defeats childhood cancer and other life-threatening diseases. Our mission is clear: Finding cures. Saving children.®

How to Help

Join a committee or participate in one of the many St. Jude events in central Illinois—email Region-Peoria@stjude.org to get involved!

Treatments invented at St. Jude have helped increase the overall childhood cancer survival rate from 20 percent to more than 80 percent since we opened over 50 years ago. We won't stop until no child dies from cancer.

St. Jude freely shares our discoveries, and every child saved at St. Jude means doctors and scientists worldwide can use that knowledge to save thousands more children.

St. Jude is where doctors often send their toughest cases, because St. Jude has the world's best survival rates for some of the most aggressive forms of childhood cancer.

Families never receive a bill from St. Jude for treatment, travel, housing or food—because all a family should worry about is helping their child live.

St. Jude conducts more clinical trials for childhood cancer than anyone else, treating children from all 50 states and around the world. Because a majority of St. Jude funding comes

from generous donors, St. Jude has the freedom to focus on what matters most: saving kids regardless of their financial situation.
