Jamie Durdel, President & CEO

TCRC, Inc. provides a wide array of programs and services to benefit persons with developmental disabilities who live and work in our community. Some of our programs are job training and placement, goal-oriented therapy, case management, vocational services, low vision services, day programs, and home-like residential settings.

In these difficult economic times, TCRC continues to provide the highest quality of services to care for close to 800 individuals each year with developmental disabilities and visual impairments in central Illinois. Our goal of maximizing independence for everyone we serve is achieved through jobs programs, life skills training, curriculum-based educational learning, therapies, and community partnerships.

We believe that community-based programs are the future of services for people with developmental disabilities, and the partnerships we are building with businesses, service clubs and other nonprofits are laying the groundwork for these services. We are very proud of our partnerships with local

entities such as Morton Rotary Club, Pekin Head Start, Midwest Food Bank, Tazewell County and Yesterday's Bar & Grill, just to name a few. These partnerships allow our individuals to showcase their job skills and continue to work toward a life of maximizing independence in our community.

Our future focus will be on our Springboard program, teaching job skills through a curriculum-based employment program that focuses on person-centered planning, including internal programs for people who want to learn skills in kitchen and janitorial programs.

We are thriving in our kitchen and janitorial programs. If you need catering services, box lunches or prepared group meals, give us a try! In addition to high-quality food, we provide opportunities for people with developmental disabilities to learn job skills and earn a paycheck. We also have over 30 janitorial contracts throughout central Illinois, so if your office or building is in need of these services, we provide jobs for people with developmental disabilities in this area as well.

Mission

We are committed to advocating for and providing exceptional care and treatment through services that are designed to promote independence, increase self-sufficiency, and strengthen individuals and families.

Vision

Caring for Special People.....Birth to Seniors
